

## BALI HUT & PATIO

A **Bali Hut** is a type of outdoor structure inspired by traditional Balinese architecture. These huts are typically made from natural materials like bamboo and thatch, creating a tropical, rustic look. They are often used in gardens, backyards, or poolside areas to provide shade and a relaxing space to unwind. Bali Huts can add a touch of exotic charm to any outdoor setting, making them popular for creating a tranquil, resort-like atmosphere<sup>12</sup>.

A **patio**, on the other hand, is an outdoor space generally used for dining or recreation that adjoins a residence and is typically paved. Patios can be made from various materials, including concrete, stone, tiles, or bricks. They are versatile spaces that can be furnished with outdoor furniture, plants, and other decor to create a comfortable and functional outdoor living area<sup>3</sup>.

Combining a Bali Hut with a patio can transform your backyard into a serene and stylish retreat, perfect for relaxation and entertaining guests.
